## **Neuro therapy Project**

Neuro therapy deals with the whole body/mind system in totality. The therapy uses the by-now well-established knowledge, that our body, like all other living beings in the universe, has the vital energy to cure itself, without any interference from external sources. It does not require chemicals or medicines from outside, because the body heals itself by creating the requisite hormones and chemicals. The philosophy behind neuro therapy involves activating or deactivating to the organ(s), through pressure or massage on the nerve channels to stimulate or depress the blood, & other body fluids and the nerve currents so as to restoring the balance and harmony of the body thus helping the body regain its equilibrium. The therapy focuses at the cause not at the symptoms of the disease.

Neuro therapy is an alternative way of healing and it has shown some very good results in case of mentally retarded children. The main philosophy behind this science is that the flow of blood is directed towards particularly weaker organs, thereby rejuvenating the organ over a period of time. Thus, it heals the disease without recourse to medicines.

Seva Bharti, Purbanchal has been running 5 neuropathy treatment centers with a service motive
